INSPECTION REPORT

FACILITY NAME Lulu California Bistro			DATE 07/16/2024	TIME IN 10:30 AM	TIME OUT 01:30 PM
FACILITY ADDRESS 200 S Palm Canyon Dr Palm Springs, CA 92262-6312			FACILITY PHONE # (760) 327-5858		
PERMIT HOLDER Jerry Keller			EMAIL caolinag@lulups.com		
PERMIT # PR0056317	FACILITY DESCRIPTION FF >=6000 SQFT Unpack	EXPIRATION DATE 07/31/2025	DISTRICT 22	SERVICE Investigation	REINSPECTION DATE 07/23/2024

General Comments:
This visit was prompted by a complaint received for this facility on 7/12/24 (CO1000450). The complaint states cockroach activity was observed at the bar of the facility.

Observed cockroach activity throughout the facility. This includes the following:

- 1 live on the floor underneath the "Panty" prep sink
- 1 live on the floor underneath the "Pantry" hand wash sink
- 1 live between the wall and behind the 2 compartment prep sink near the back cook's line
- 1 live on the base coving tile underneath the 2 compartment prep sink near the back cook's line
- multiple dead cockroaches throughout the kitchen area including: 1 on a plate located next to shelving containing extra dishes, floor underneath the rear cook's line equipment and sinks, floor of the storage area underneath the kitchen stairs, floor of the "Pantry" prep area.

Eliminate the activity of cockroaches from the food facility by using only approved methods. Remove all evidence of the activity and thoroughly clean and sanitize all affected surfaces. Construct, equip, maintain and operate the food facility so as to prevent the entrance and harborage of animals, birds and vermin including, but not limited to, rodents and insects.

CLEANING:
Observed multiple areas throughout the facility to be in need of cleaning. This includes but is not limited to the following areas:

- heavy grease and food build up on the interior bottom compartment of the fryers
- heavy food debris build up inside the large channel drains of the back cook's line
- grease build up along the pizza dough machine and large standing mixer
- grease build up along the bottom of the broiler and bottom panels of the oven
- old bread in the upstairs bread warmer
- food debris on the floor underneath both cook's lines

Maintain all equipment in a clean and sanitary manner.

FLOORS
Observed standing water on the floor throughout the facility. This includes but is not limited to the following areas:

- rear cook's line grated drain and surrounding area
- ware wash area
- "Pantry" area

Maintain all floors in a clean and sanitary manner.

Observed grouting to be deteriorated in the floors throughout the kitchen, ware wash area, and food storage area.

- Replace all deteriorated grouting. Maintain all floors in good repair.

Observed leaks in the piping underneath the 3 compartment ware wash sink, underneath the dish machine, and underneath the hand wash sink located in the Pantry area. Repair all leaks to prevent standing water.
